

VACCINATION STATION

Why Bother?

Some people, such as older people, young children, and people with certain health conditions, are at high risk for serious flu complications.

Getting vaccinated protects you and those you love.

Do It Now—Why Wait?

Every year in the U.S.:

- 5% to 20% of the population gets the flu
- more than 200,000 people are hospitalized
- about 36,000 people die from flu

FLU'S GONNA LOSE

Protect Each Other – Get Vaccinated
